NFB T&D Presentation July 2016.pdf

Thanks. Kevin and I were discussing. We just need to get some feedback from the vendors on the different variables of return. Do they go straight from Idaho back to NJ or do they have to go back to Niagara Falls. I will be sending a summary of my findings to you both regarding T&D. We can then reach out to others to verify certain aspects. I have attached a presentation I used to discuss the topics with the T&D facilities to give you both an idea on what I was looking for.

Yes, this is incorrect. There should be a separate line item for return of empty intermodals to the vendor. I will revise this.

This looks good. However, please clarify what this means:

“The cost should include transportation of the container to the Niagara Falls Boulevard job site and the return of intermodals to their original point of mobilization”.

These containers will most likely be going to the T&D facility and either back to our site or back to their facility, no?

Importance: High

Eric,

Please see the attached draft solicitation for Intermodal containers. Let us know if there are any changes or if we can make this a final and put it out for vendor quotes.

Thanks

Kevin Shaver
